SUMMARY

UI/UX Designer based in London, combining a CS and UX Design background with strong expertise in AI-driven workflows to enhance and accelerate the design process. Skilled in research, wireframing, prototyping, and usability testing, with a focus on creating accessible effortless digital products, and the technical fluency to vibe code them, not only design them.

EDUCATION

M.A. in User Experience Design — **University of the Arts London (UAL)** **Sep 2026 – Dec 2027**

B.Sc. in Computer Science — **University of Greenwich (Grade: First Class Honours)** **Jan 2021 – Jun 2025**

WORK & EXPERIENCE

UI/UX Designer (Freelance) — **Character Pad (Android App Redesign & Behance Case Study)** **Jun 2026 – Jul 2026**

- Scraped and analysed 7 years of Play Store reviews with Claude Code, narrowing 634 actionable 1–4-star reviews into 12 key findings across search, onboarding, navigation, and usability.
- Redesigned Character Pad (1.6M+ installs, 4.7 rating) with the product owner, turning the findings into 10 solutions across 77 Figma screens, refined through moderated usability testing with 6 users.

UI/UX Designer Intern — **X-Ray Home (London, UK)** **Jan 2026 – Apr 2026**

- Conducted 4 user interviews, competitive analysis, and an audit, uncovering 19 accessibility and usability issues, translating findings into targeted design improvements that elevated the overall user experience across the website.
- Built a WCAG-compliant design system with 30 structured components, variants, and color tokens, aligning the product's visual language across the website and enabling scalable reuse.
- Led the end-to-end redesign of the homepage, property listings, and 9 other consumer webpages using the design system, then validated it through moderated usability testing with 4 new users.

PERSONAL PROJECTS

Kiddiwear — **Website Prototype & Behance Case Study**

- Rapidly prototyped Kiddiwear, a P2P marketplace website for buying and selling second-hand children's clothing, by creating 51 low and high-fidelity screens through vibe coding.
- Designed the core UI/UX on Figma with a scalable design system of 22 reusable components, focusing on simplicity, responsiveness, and a seamless experience for browsing, listing, and buying/selling items.

Website Wireframe Prototyper Skill — **Claude Code Skill**

- Built a reusable Claude Code Skill that streamlines the end-to-end design workflow, from structured discovery and competitor research to generating a WCAG-compliant design system and building interactive low-fidelity wireframes or high-fidelity prototypes with real navigation, exportable screens, and a transferable design system to Figma.

TECHNICAL SKILLS

Design: Design Systems, Wireframing, Prototyping, Accessibility (WCAG), Visual Design, Interaction Design, Responsive Design

Tools: Figma, Figma Make, Adobe XD, Notion, Lucidchart, Jira, Claude Code, Codex, Google Stitch, Framer, Relume, Manus

Research: UX Research, User Interviews, Usability Testing, A/B Testing, Heuristic Analysis, Journey Mapping, Persona Creation

Technical: Python, JavaScript, TypeScript, HTML, CSS, React, Tailwind CSS, SQL, Git, Vibe Coding

CERTIFICATIONS

Google UX Design — **Google** **Claude 101** — **Anthropic** **Claude Code 101** — **Anthropic**
